

## Our amazing employees

Your child's care is in the loving, caring hands of CHC healthcare professionals with years of experience and advanced training, especially in critical care areas. But most importantly we are:

- Passionate about your children's well-being
- Sincere, courteous, respectful and kind
- Positive, cheerful attitudes
- Listen and communicate well
- Committed to CHC mission and core values

## You are involved

CHC is patient centered and family focused. Our goal is to keep families together as much as possible. Parents and guardians are always welcome here.

Many wonderful activities and events take place at CHC, and with physician consent, children can join our community field trips. Many activities encourage family participation.

Home visits are encouraged when your child is medically stable and when parents or guardians have completed Health Care Provider CPR and Care Giver Training (in ventilator, tracheostomy and G-Tube care). CHC offers this training on site.

## Contact CHC – for your child, for your family, for you

Your child deserves all the love and care that every child requires to thrive. But it can be a difficult if not impossible burden to carry by yourself, and it undoubtedly puts heavy stress on your family. You don't have to go it alone. Ask our family to take on the responsibility for your child's healthcare. You know that a hospital or other options may not be the right environments. In every situation, see if CHC is the right decision for your child.

Contact Children's Habilitation Center today and we will answer all your questions and concerns. Schedule a tour to see for yourself the haven that awaits.

**– Your Child Belongs at CHC –**  
*Where Miracles Happen Every Day!*

## Amazing Care for Your Beautiful Child

Your child is beautiful, a miracle. Yet your child may be medically fragile, needing extensive care that you can't give by yourself. Children's Habilitation Center is the one place where your child will thrive.

In a homelike atmosphere, CHC provides passionate, advanced care 24 hours a day, 7 days a week for infants and children who suffer from chronic illness, brain and spinal cord injuries, complications from premature birth, or birth defects. About half of the children receive state-of-the-art ventilator care and approximately 90 percent receive trach care.

At CHC, your child will live in a professional medical setting filled with love and affection. It's an environment that can't be imitated by hospitals.

With this unmatched combination of care and compassion, children live their lives to their fullest. We celebrate the miracle of their lives every day.

## OUR MISSION

To provide love and care for children with complex medical needs, and be the service bridge between an acute care hospital and home.

## CHC – The Best Pediatric and Adolescent Complex Habilitation Care in the United States

Habilitation is the lifelong medical and therapeutic treatment of a condition that will never be cured, but maintaining the current state, preventing digression, or improving substantially is possible. For some, habilitation is a bridge back to home.

CHC is a national leader in habilitative pediatric care, and the longest standing and most experienced long-term pediatric care facility for ventilator-dependent children serving the Midwest. CHC's pioneering Pediatric Ventilator Weaning Program has helped free many children from the burden of being tied to a breathing machine.

CHC is licensed by the Illinois Department of Public Health as a 67-bed long-term-care residence with emphasis on providing pediatric care for the medically complex developmentally disabled population — specifically those using ventilators.

### CHC OFFERS:

- Board certified pediatric physician and nurse practitioner specializing in neurology on staff
- Complex care nursing services
- CNA monitoring of residents 24/7 in every room
- State-of-the-art ventilator and trach care
- Physical, Occupational and Speech Therapy
- Registered dietitian specializing in individualized pediatric tube feeding
- State of Illinois certified education program for all residents
- Close affiliation with Chicago's leading pediatric medical center – Comer Children's Hospital

*All care decisions are made in the best interest of your child, and managed under the direct supervision of a board-certified physician and nurse practitioner. As parent or guardian, your input is valued, and you approve all major medical and educational decisions.*

*Your child's admission to CHC does not affect your parental rights or guardianship status.*
